STOLTZE ET AL.

**Examiner**

Darwin P. Erez

**Art Unit**

3773

**Period for Reply** -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 26 May 2010.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

**DETAILED ACTION**

1. This Office action is in response to the applicant's communication filed on 5/26/10.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 41 and 42 are rejected under 35 U.S.C. 102(b) as being anticipated by US 4,969,458 to Wiktor.

Wiktor discloses a method of forming a stent (1) on the inflated portion of a balloon catheter (7) [col. 4, lines 42-47; Fig. 2]. The stent is releasably retained within depressions formed on the inflatable portion of the balloon catheter, as seen in Fig. 2. It is evident from the figure that the loops (6) of stent (1) are releasably retained by depressions formed in the balloon, as communicated by the short lines emanating therefrom. Crimping the stent onto the balloon is what causes such depressions [col. 3, lines 24-28], and the device that crimps the stent to the balloon is considered a softening device since it is able to deform a relative stiff stent unto said balloon.

***Allowable Subject Matter***

4. Claims 25-35, 45 and 46 are allowed.
5. Claims 43 and 44 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 5/26/10 have been fully considered but they are not persuasive.
7. The applicant argued that Witko fails to teach the stent being releasably retained within depressions formed on the balloon. This is not found persuasive. The claim limitation merely states "releasably retaining said stent to said inflatable portions by depressions formed therein". The claim does not further describe how or when the depressions are formed in the inflatable portion. As seen in Figs. 2 and 4 of Witkor, the stent causes depression in the inflatable portion while secured thereto. Therefore, Witkor discloses all the limitations of claims 41 and 42.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Darwin P. Erezo whose telephone number is (571)272-4695. The examiner can normally be reached on M-F (8:00-4:30).
